

PROTECTED JUNCTION FOR EXTRA ELECTRICAL FEATURES

The **Dual Shield** provides two levels of protection to help counteract parasitic loads on electrical systems: low voltage disconnect and timed disconnect.

DSLVD-01 Multi Channel
DSLVD-02 Single Channel

Perfect for vehicles with aftermarket electrical devices such as cameras, lights, or GPS systems.

A single source with multiple **fuse-protected junctions** for additional electrical devices.

Built-in safety features, like LED lights, to alert drivers and technicians of the status of the input and outputs.

KEY FEATURES

BENEFITS

- COUNTERS PARASITIC LOADS
- SIMPLIFIES ADDING ELECTRICAL DEVICES
- PROVIDES TIMED DISCONNECT AND LOW VOLTAGE DISCONNECT OPTIONS

DIMENSIONS 6 1/4" L X 9" W X 4 1/8" H | SHIP WEIGHT 1.4 LBS.
