

AVOID LIFTGATE BATTERY ISSUES

Save Space on the Front of Your Trailer

Liftgate Charging Systems

The Direct™ Plus, Flex, and Max combine our liftgate charging system with a space-saving 7-way nosebox.

They also include an optional interior light controller designed to turn the lights on inside a trailer and automatically shut them off either:

- via a timer
- if the truck starts
- if the liftgate batteries drop to a low state of charge

CONFIGURATIONS

<u>INCLUDES</u>	<u>PLUS</u>	<u>FLEX</u>	<u>MAX</u>
7-Way	X	X	X
Dual Pole		X	X
Extend Function		X	
Severe Service			X
