

# Technical Bulletin

## Status™ Update

The Status battery state of charge indicator is undergoing a running change; customers may receive either version for a short time to eliminate supply issues. The updated Status uses a screen to show numeric battery voltage and state of charge, and also has an LED that turns green, yellow/amber, or red to indicate battery health.

Old Status: Discontinued  
Part Number: STATUS-01

New Status  
Part Number: STATUS-100
